WHEAT TAKES AN UPTURN.

FIXING OF MARGINAL PRICE ON MAY REFUSED.

News Bullish Generally, Although Fine Weather in West Acts as a Factor for Decline-Provisions Strong.

Chicago, March 17.—The retusal of the board of rade directors to fix a marginal price on May wheat was the main factor in that market to-day. Though he advance this caused was lost about the middle of he advance this caused was lost about the middle of the session, prices recovered again, the July option losing \(\frac{1}{3} \) c. higher than yesterday. May showed an qual advance. Liquidation of May contracts in corn and acts made those markets weak, declines of \(\frac{1}{3} \) Green and \(\frac{1}{3} \) c. respectively resulting. Provisions were firm if day, and closed \(\frac{1}{3} \) Gibble higher.

A good deal of strength was shown at the opening to wheat, although trading was not heavy. The account of the directors last night in refusing to fix a sarginal price on May contracts, and the fact that settimony taken by the board showed shipping values to be more than the bears cared to admit, caused a so marked as to cause an immediate advance in prices. Besides the directors' action, some of the routine news was of a bullish nature. Killing frosts were reported from California. Freezing weather was reported in the Northwest, and Minneapolis advices said the receipts of wheat from now on would probably be mostly of low grades. Northwest receipts were not so heavy, Minneapolis and Duluth reporting 211 cars, against 231 last week and 205 a year ago. Chicago receipts were 147 cars. Of this number 53 were of contract srade, but, notwithstanding this large were not so large, as private houses contributed but 12 cars and 20,000 bushels. Liverpool, in view of the declines here yesterday, showed an unexpected degree of steadiness. Opening trades in July were on an advance of \$\frac{1}{2}\times\$, \$\fra strength the market displayed for some time, for the option for May, soon started and grew quite heavy as the session advanced. The favorable weather was a factor, the trade entirely ignoring presterday's heavy exports. Covering of short contracts was fairly liberal at the bottom and some rally ensued. May ranged from 25% to 25%c, and closed %6%c lower, the contracts was fairly liberal at the bottom and some rally ensued. May ranged from 25%c to 25%c, and closed %6%c lower, the contract was fairly liberal at the bottom and some rally ensued.

ranged from 25%c to 25%c, and closed %6%c lower, at 20c bid.

The market for oats was much the same as corn. Early steadiness with wheat was succeeded by a long period of weakness, liquidation of May being heavy. In this market, too, the weather was the factor. Shorts covered near the close, and a substantial rally ensued, the market closing fairly steady. There was some demand for spring shipment at the decline. May ranged from 25%c to 24%c and closed %c lower, at 25%c 25%c.

Provisions were the firmest market on the floor. Small receipts of hoss caused a firm opening, shorts and packrs came into the market with good buying orders and a steady advance ensued, closing prices being about the best of the day. At the close May pork was lie higher, at 39.77%; May lard, 10c higher, at 35.15, and May ribe. 7%c higher, at \$5.10.

Stocks and Bonds.

New York. March 17.—There was a complete reversal of sentiment on the Stock exchange to-day compared with that of the earlier part of the week, and prices sagged almost continuously. The losses averaged nearly 2 per cent in the standard shares, and were more pronounced in the specialties, where in one case the decline exceeded 4 per cent. Trading was dominated by the announced completion of the Maine board of inquiry report, the failure of Pacific roads to reach an amicable agreement upon passanger rates and the heavy selling by houses with Washington connections. A favorable factor which had little influence was the continued indux of gold. The present movement, including to-day's engagements of \$1,300,000 and the \$1,500,000 en route from Australia, is in excess of \$30,000,000. The continued case of money likewise attracted little attention. The resumption of uneasiness as to the general Cuban situation seemed not to be shared on the foreign bourses, where Spanish is advanced, although this may have been due to the announcement that the interest payments, which had been in doubt, would be made. The bears offered round amounts of the grangers, Sugar, Manhattan, Metropolitan Street Railway and other prominent securities. The absence of support by lending financial interests was readily perceived, and by the advocates of lower values utilized to the fullest extent. London was rather apathetic, and early prices afforded little encouragement to either party, being slightly mixed. Subsequent cables reported the London exchange's closing exceedingly weak in response to this side. Sugar absorbed the bulk of the traders' attention during the day at receding prices. It was the rossip of the street that late this evening the rapid transit commissioners would announce certain concessions to Manhattan in the way of extensions, but that stock declined considerably. The net losses of 2 points and over followed, Metropolitan Street Ballway 4th, Sugar 2%, Consolidated Gas 2½. Tobac Stocks and Bonds.

Dry Goods.

New York, March 17.—There was an appreciable gain in the sales of cotton goods and perhaps a slight strengthening of the dry goods market over that of the early part of the week. These conditions are more marked in some quarters than in others, but it is evident that there are no added discouraging features to the market as it stands today. The jobbing trade reports continued spring trading and there is a modicium of added demand on reorders for seasonable goods. The new fall lines on cottons are very favorably considered by buyers, as a rule. In dress goods, napped fabrics and such other lines as are beginning to be opened, the early inquiries show much interest on the part of the jobbers. Woolen goods, however, are dull in nearly all grades. Men's wear fabrics are without feature. In staple cotton there is said to have been considerable interest displayed in wide sheetings, and sales are reported at a trifling advance over previous figures. Print cloths are weak. The nominal quotation is still at 2½c, but sales at 21-16c were reported yeared on the market. Prints sell with a fair degree of activity. Staples show a steady demand in the main in nearly all grades.

Kansas Live Stock Sanitary Commission Will Insist on Another Inspection by the Texas Department.

Topeka, Kas., March 17 .- (Special.) The Kansas live stock sanitary commission has taken steps to prevent the shipment of tlemen into this state until another inspection is made by the Texas department. These cattle are grazing in four counties, which border on the quarantine line on the north. Some ticks have been found on them. The Kansas commission warned the owners that, although the cattle were this side of the line, it would not permit their removal as long as they were ticky. The Texas commission has joined the Kan-sas commission in the matter, and a rigid April 1. If ticks are discovered, and the owners insist on shipping the cattle, the Kansus commission proposes to change the quarantine line so as to throw the coun-ties where the cattle are now grazing be-low it.

Muskogee, I. T., March 17.—(Special.)
Hundreds of cattle are being shipped within
the limits of the five tribes in violation
of their quarantine laws which can no longer be enforced on account of the passage
of the act abolishing the tribal courts, and
the tribal authorities have therefore made
complaint to Indian Agent Wisdom, of this
place, who at once forwarded the complaints to the commissioner of Indian affairs at Washington. Agent Wisdom has
just received a letter from the commissioner, in which he states that he has submitted the complaints to the secretary of the
interior with the recommendation that District Attorney Soper, of the Northern district, Indian Territory, be instructed to
institute proceedings in the United States
courts to recover the penalty provided by
the United States statute, for grazing cattle on Indian lands contrary to the will of
the tribe. This means that the cattlemen
will have to pay a penalty of \$1 for each
head of cattle so grazing on the Indian
lands, but there seems to be no law to
compel them to remove the cattle after the
penalty has been paid, and when Agent
Wisdom was asked regarding this matter he
stated that while there was no law to that
effect, yet he would have the authority to
remove the cattle from the nation on account of the protection which the government has guaranteed to these tribes, but
there are at present no funds available for
this purpose, and he would be unable to remove the cattle until there was an appropriation made by congress for the purpose.

"If you wish to see a land of plenty and

priation made by congress for the purpose.

"If you wish to see a land of plenty and contented and prosperous farmers, you want to visit Jewell and Smith counties in Kansas," said W. A. Rogers yesterday. "The country is full of feed and it is selling cheap. Plenty of corn, and it is being bought by feeders at 18 and 29 cents per bushel, and stalk fields look as if they had never been touched, and plenty of them can be had at 5 cents per acre, such as ordinarily sell at 50c an acre, and this when there are more cattle and hogs on hand than a year ago. In Jewell City the stores are rushed to their full capacity, it being no uncommon thing to see buyers standing outside waiting their turn to get in some of the large establishments."

Mrs. Nellie G. Buyer, of the Women's

Mrs. Nellie G. Burger, of the Women's Christian Temperance Union, addressed a meeting of stockmen in the assembly room of the Live Stock exchange yesterday afternoon upon social purity. She was well received and made a number of telling hits during her lecture. She was followed by a concert under the auspices of the Stock Yards Gun Club, given by the following voices: G. M. Walden, Lu S. Jones, Mrs. Joe H. Franklin, Ella Van Stevenson Huff, Ella Backus Behr, Ida Mathews-Noland and Mrs. T. E. Gillespie.
